
**NUTRIENTS AND SUSPENDED
SEDIMENT TRANSPORTED IN THE
SUSQUEHANNA RIVER BASIN, 2001,
AND TRENDS, JANUARY 1985
THROUGH DECEMBER 2001**

Publication No. 225

December 2002

*Kevin H. McGonigal
Water Quality Program Specialist*

*Robert E. Edwards
Water Quality Specialist/GIS Coordinator*

Printed on recycled paper.

This report is prepared in cooperation with the Pennsylvania Department of Environmental Protection, Bureau of Water Quality Protection, Division of Conservation Districts and Nutrient Management, under Grant ME351511.

SUSQUEHANNA RIVER BASIN COMMISSION

Paul O. Swartz, Executive Director

John T. Hicks, N.Y. Commissioner
Scott J. Foti., N.Y. Alternate

David E. Hess, Pa. Commissioner
John Hines, Pa. Alternate

Vacant, Md. Commissioner
Dr. Robert M. Summers, Md. Alternate

Brig. Gen. Stephen M. Rhoades, U.S. Commissioner
Col. Charles J. Fiala, Jr., U.S. Alternate
Col. John P. Carroll, U.S. Alternate

The Susquehanna River Basin Commission was created as an independent agency by a federal-interstate compact* among the states of Maryland, New York, Commonwealth of Pennsylvania, and the federal government. In creating the Commission, the Congress and state legislatures formally recognized the water resources of the Susquehanna River Basin as a regional asset vested with local, state, and national interests for which all the parties share responsibility. As the single federal-interstate water resources agency with basinwide authority, the Commission's goal is to coordinate the planning, conservation, management, utilization, development and control of basin water resources among the public and private sectors.

ACKNOWLEDGEMENTS

The authors would like to acknowledge those who made important contributions to the completion of this project. Specific thanks to Susquehanna River Basin Staff; Dave Heicher, Jen Hoffman, Susan Obleski, Pat Adams, Doreen McCabe, and Bob Edwards for report review, comments, and input. Additional thanks to Bob Edwards for time, knowledge, and training shared throughout the entire project and to Doreen McCabe for time and assistance in writing the report. Thanks to Donna Gavin, of SRBC, for GIS support. Thanks to Daryl Sitlinger, from SRBC, for field support and training throughout the project. Also thanks to Mike Langland of USGS for time and knowledge invested in completing trends analysis. Finally, thanks to the Pa. Department of Environmental Protection for providing funding for the project.
